Ammonia Capacity in North America

This chart illustrates the cumulative sum of capacities for all existing ammonia plants
and active expansion projects announced in North America as of January 15th 2014.
Capacity is given in metric tons of ammonia per year, assuming 100% up-time (365 days per year)
Likelihood represents a personal opinion. Source: Trevor Brown, http://ammoniaindustry.com

		2012	2013	2014	2015	2016	2017	2018	2019
UNLIKELY							1,631,000	1,741,000	2,541,000
POSSIBLE					213,300	446,300	5,165,600	5,968,600	6,768,600
